

ESC Automation Inc (Surrey, BC) acquires certain assets of Optimira Controls Inc

ESC Automation Inc. is pleased to announce that we have acquired assets of Optimira Controls Inc.,

ESC Automation formed in 1980, originally developed, manufactured, installed and serviced Building Automation Systems. In 1986, the product development and manufacturing arm of ESC Automation was transferred to a newly created company called Delta Controls Inc.

With corporate head offices under one roof, Delta Controls and ESC Automation have developed and delivered unprecedented building automation solutions. With innovative design, and product application, we have improved occupant comfort and safety while optimizing energy efficiencies.

Delta Controls has grown into a global leader in BACnet building automation controls, systems and solutions. Through 300 Partners worldwide, Delta Controls has projects in over 70 countries and 6 continents. Delta sets the standard for building comfort management while optimizing facilities performance and energy savings.

ESC Automation, now celebrating its 30th anniversary, continued on as a Delta Partner to become one of the largest independent control contractors in North America.

Optimira Controls Inc. and its predecessors has been a Delta Partner for 24 years and has installed Delta Controls Systems in significant number of buildings in the Greater Toronto market.

ESC Automation, a “Do It Right” certified partner of Delta Controls is noted for its uncompromising focus on customer service, is excited to add this talented group of very dedicated Optimira employees to our team.

Your ESC/Optimira business development representative will be contacting you shortly to discuss this change and ways we may be able to help your business

Thank you for your past and future support.
